

RECYCROM

RECYCROM is a revolutionary sustainable dyestuffs range, patent pending, using recycled used clothing, fibrous material and textile scraps.

By a sophisticated process, Officina +39 has developed a system to reprocess the scraps and transform textile fiber into colored powder.

RECYCROM is available in many colors using 100% of recycled textile materials.

APPLICATION

RECYCROM is possible to be applied on cotton, wool and their blends by:

- Exhaustion
- Spray
- Printing

PRODUCT DETAILS

APPEARANCE :	Coloured powder
CHEMICAL DESCRIPTION :	Grinded cellulose

The indications given herein correspond to practical experiences. Owing to the differences in local conditions they cannot claim to be complete, so that any liabilities – also with a view to claims of third parties – are excluded.
