Apricot BioExfoliator 200(*)	V17	100 - 200

(*)Bio : Organic certified

2 } ABRASIVENESS

3 } MARKETING IMPACT

Originally from the north east of China, apricot is cultivated for almost 4,000 years. Archetypal summer fruit, Apricot is a synonym of sun, holidays and delicacies.

These microparticles of apricot kernels refine the skin and tone it.

4 } COMPATIBILITY & STABILITY

Stable in all types of formulations including aqueous formulations. The abrasiveness of particles do not change. The particles do not bleach and do not colour the product. The Apricot Exfoliator is easy to maintain in suspension.

5 } REGULATORY CONSTRAINTS

Certified as 100% organic by Ecocert Greenlife according to COSMOS-standard available at <http://COSMOS.ecocert.com>

TECHNICAL DATA	
Presentation	Powder
Colour	Light brown
Fragrance	No
Microbiology	<100 cfu/g - <200 cfu/g ⁽¹⁾
Packaging	20-kg drum
Shelf-life	120 months
INCI	PRUNUS ARMENIACA SEED POWDER
